Summary

B.Tech CSE graduate with hands-on experience in Generative AI and Prompt Engineering through internships, and projects. Skilled in building scalable applications, real-time systems, AI-generated content, and IoT-based solutions.

Experience

APSCERT (Andhra Pradesh State Council of Educational Research and Training)

Dec 2025 – Mar 2026

AI & Prompt Engineer

- Developed 2000+ high-resolution educational illustrations and learning visuals for primary school textbooks used by Andhra Pradesh State Council of Educational Research and Training (AP SCERT).
- Designed structured text-to-image prompts and visual layouts to generate accurate educational diagrams and concept illustrations.
- Ensured images follow curriculum guidelines, clear object representation, and countable elements for mathematics and learning activities.

Blackbucks Pvt.Ltd

May 2025 – Jul 2025

Gen Ai & Prompt engineering intern

- Completed internship on Generative AI and Prompt Engineering.
- Learned how to design and use effective prompts for AI tools.
- Executed concepts to build a To-Do application using AI prompts.

Education

Dhanekula Institute of Engineering & Technology, Vijayawada (B. Tech in CSE)

Aug 2022 – Apr 2026

Narayana Junior College, Machilipatnam (Class 12th)

Jun 2020 – Apr 2022

Municipal High School, Machilipatnam (Class 10th)

Jun 2019 – Mar 2020

Projects

To-Do-App Using Flutter| Flutter

- Created a basic To-Do Mobile App for Android using Flutter and AI-generated prompts.
- Implemented features such as task prioritization and time tracking to enhance productivity.
- Designed a simple and user-friendly interface for efficient task management.
- App Link: “https://drive.google.com/drive/folders/1ISTG4A-6dzKjqF4rxzDiCHhaLCxXH_Yd”

Smart Supermarket Management System

- Developed an IoT-based Smart Supermarket System using ESP32, RFID, and Spring Boot
- Reducing manual billing effort and enabled real-time cart tracking.
- Built REST APIs using Spring Boot with JWT authentication and PostgreSQL database for managing users, products, carts, and payments.
- Designed a React-based dashboard for real-time cart tracking, admin monitoring, and secure payment verification

Certification

- Machine Learning – AWS
- Generative AI – Google
- Data Analytics – Google
- Java Programming – Infosys springboard

Technical Skills

Programming Languages: Java, C, HTML/CSS, JavaScript, SQL

Tools & Platforms: Git, VS Code, Power BI, GCP

Frameworks: Node.js, Express.js, React.js

Soft Skills: Problem-Solving, Teamwork, Adaptability, Time Management
